

As a business owner in the specialty pet hotel and daycare market, you face a wide variety of risks.

Protecting your business from the potential financial impact of property damage and lawsuits while maintaining a safe workplace can be challenging.

Pet Hotel and Daycare Insurance Program

Safehold Special Risk's Pet Hotel and Daycare Insurance Program addresses the needs of your business — from your facility and animals in your care, to in-house services, such as grooming, training, and veterinary. We have worked with carriers to develop insurance and risk control programs designed especially for pet hotel and daycare businesses.

Comprehensive insurance solutions

Our program is supported by a staff of knowledgeable professionals with years of experience in the veterinary and pet services marketplace. We offer access to a suite of proprietary products designed especially for the needs of your industry:

- **Animal Bailee Coverage.** Coverage starts at \$50,000 per location with higher limits available, along with up to \$25,000 relocation expense and \$2,500 reward and recovery reimbursement.
- **Workers' Compensation Insurance.** Includes coverage for employees and volunteers with employer liability limits up to \$1,000,000.

- **Business Owners' Insurance.** Includes coverage for animal damage to property you own, rent, or lease, general liability, business interruption and extra expense, and other important extensions, such as employee dishonesty and equipment breakdown.
- **Business Auto Insurance.** Special extensions of coverage are available for modified vehicles designed for pet transportation services.
- **Umbrella.** Coverage for extra financial protection.
- **Professional Liability.** Covers employed pet groomers, trainers, and animal behaviorists — as well as veterinarians, veterinary technicians, and volunteers.

Special features for professional liability

We negotiated hard-to-find features in our professional liability coverage, such as elimination of the so-called “hammer clause,” which means no settlement without the insured’s written consent. You maintain the right to defend your reputation by refusing recommended claim settlements by the insurance company.

Additional coverages

Our team can customize an insurance plan that fits your specific needs, including solutions for:

- Network Security and Privacy (Cyber)
- Employment Practices
- Directors’ and Officers’ Liability
- Builders’ Risk
- Flood and Earthquake (subject to availability)
- Special Events Liability

Risk management

Our customized risk control services include periodic staff safety training materials, on-site loss control surveys, and first-aid tips, along with dedicated claim professionals who help you manage claims to resolution. If you have other insurance policies for your business, we’ll provide a complimentary review and work with you to prevent coverage gaps or duplicate coverage.

Our goal is to coordinate the best insurance products and risk management practices for the unique needs of animal services businesses.
